

EURASIAN NATIONAL UNIVERSITY

ALWAYS REACHING HIGHER!

TOP-5 ENU ADVANTAGES

LOCATION

1

Astana is a flourishing and culturally rich city with a rapidly developing infrastructure. The young capital is an excellent place to continue the academic path and start a career. ENU is located on the right bank of Astana, in a picturesque campus along the embankment of the Akbulak channel.

INFRASTRUCTURE

2

ENU is a wonderful and safe place with modern learning opportunities. The university infrastructure consists of 7 academic buildings, 8 student houses, 2 sports complexes, a modern library, a sport and recreation base, etc.

SCIENCE

3

ENU has leading scientific schools in the field of biology and biotechnology, nuclear physics, mathematics and information technology, chemistry and earth sciences, engineering, social sciences and humanities. There is a business incubator for the development of entrepreneurship among students, where hundreds of projects have been accelerated. The ENU Business Incubator regularly conducts trainings for students and young scientists on launching startup projects and entrepreneurship development.

ACADEMIC ACHIEVEMENTS

4

Spacious classrooms, a teaching staff devoted entirely to work and focused on the students' success and a huge number of opportunities contribute to the comprehensive career growth of our students. ENU also has well-developed academic mobility and double-degree education programs, on the basis of which students can go to study in more than 50 countries of the world.

SOCIAL ENVIRONMENT

5

The University creates opportunities for the all-round development of students. Our university has more than 80 student clubs for the personal growth of young people. Our students actively participate both in the University activities and the social events of Kazakhstan.

HISTORY OF ENU

1996

L.N. Gumilyov Eurasian National University was founded by the Decree of the President of the Republic of Kazakhstan on the basis of the merger of two universities – Akmola Civil Engineering Institute and Akmola Pedagogical Institute.

2001

- By the Decree of the President of the Republic of Kazakhstan, the university was granted a special status of a national university.

- By the decree of the Government of the Republic of Kazakhstan, the University was renamed the L.N. Gumilyov Eurasian National University.

2005

ENU signed the Magna Charta Universitatum (Great Charter of Universities) in Bologna (Italy).

2010

The first Kazakh university to enter the “top 500 best universities in the world” according to the ranking agency QS World Universities Ranking in 2010.

2012

Became a laureate of the Altyn Sapa Prize of the President of Kazakhstan.

2013

Was recognized as the best young university in the CIS countries in the QS World Universities Ranking

2015

L.N. Gumilyov ENU was recognized as the winner in “The most cited scientific organizations of Kazakhstan 2015” nomination according to Thomson Reuters.

2022

- Entered the Top-300 of the QS World University Rankings.

- By the Decree of the Government of the Republic of Kazakhstan dated September 21, 2022, L.N. Gumilyov Eurasian National University was awarded the status of a research university and the Development Program for 2022-2026 was approved.

- On December 6, 2022, a branch of the Eurasian National University, the Kazakh Language and Culture Center, was opened at Osh State University.

2023

On September 13, 2023, a joint faculty of information technology was opened at the Tajik Technical University named after Academician M.S. Osimi.

EDUCATIONAL ACTIVITIES

Our university's quality of education meets the highest standards, as evidenced by the successful participation of ENU in international and national rankings, international accreditation of programs.

Educational activities are carried out by highly qualified specialists, among whom are laureates of state prizes in the field of science and education, well-known scientists, academicians, doctors and candidates of sciences, professors and associate professors, PhD doctors and lecturers with extensive experience in teaching and scientific activities.

38 educational programs out of the total number are innovative and unique that have no analogues. They are based on the Atlas of new professions and competencies of the Republic of Kazakhstan, derived from the current requests of large employers in Kazakhstan.

Currently, the share of employed graduates is 87%.

The inflow of applicants has increased more than fivefold since the establishment of the university – from four thousand in 1996 to twenty thousand in 2023.

Students of L.N. Gumilyov Eurasian National University acquire profound knowledge, broad mindset, rich culture, and also advance mobility, creativity, and leadership attributes. It allows them to find an application for their knowledge.

Today, more than 80 thousand first-class specialists have graduated from the alma mater.

SCIENTIFIC ACTIVITY

L.N. Gumilyov ENU fundamental and applied scientific research is implemented at scientific schools and 31 research divisions (institutes, centers, laboratories). There is a "Laboratory of Engineering profile" in the field of nuclear physics and a "Testing Laboratory of building materials and mixtures "ENU-Lab". These laboratories conduct a full range of studies in nuclear physics, materials science, and building materials research thanks to advanced equipments.

L.N. Gumilyov ENU is a publisher of 18 scientific journals, 3 of which are included in the international database Web of Science Core Collection (Emerging Sources Citation Index): "Eurasian Journal of Mathematical and Computer Applications", "Eurasian Mathematical Journal", "Eurasian Journal of Physics and Functional Materials". The university has been publishing the journal "Turkish Studies Journal" (TSJ) since 2019.

The journals have individual websites on the OJS platform. All articles are assigned a DOI – Digital Object Identifier, which facilitates the exchange of information between scientists.
