Situated in the French Silicon Valley, with 500 high tech companies, Grenoble stands out as a resolutely student-oriented city. Its lively, pedestrianized city center offers a wealth of cultural activities and outings. The city provides lush parks that encourage you to unwind and savor enjoyable moments. Grenoble has a strategic location within Europe, with 3 international airports nearby. Additionally, a high-speed TGV train connects Grenoble to Paris in just 3 hours. Geneva and Turin are also just a couple of hours away by car.

## FACULTY

Classes are taught by GEM faculty, visiting professors from top universities, and inspiring business professionals. Their diverse cultural and international background adds to the international dimension of the program.

## PEDAGOGY

Typically, students are expected to work 30 hours outside the classroom. This includes pre-reading and preparation for class, homework and group/individual assessments.

## TESTIMONIAL

*"My time in Grenoble was one of the most fulfilling and meaningful moments during my undergraduate career. Being able to meet students from everywhere around the world while being submerged in a different culture allowed me to gain a new perspective on life and become more open-minded. Being able to be in a new space not only helped me gain new perspectives, but it also helped me grow my desire to explore the world outside the comfort of what I know."*
